(916) 264-4401 Ext 1153**

29 October 2020

Perspective students, parent(s) and guardians,

Thank you for showing an interest in joining the C. K. McClatchy award winning AFJROTC program.

Hopefully, all of you have already gone to the SCUSD Open-enrollment office website and enrolled for the 2021-22 academic year.

This application is in addition to the one you filled out at the open enrollment center/website. If you fail to fill out both applications, your slot will be given to another student who is on our current waiting list.

Though freshman and sophomore cadets earn PE credit we are so much more than gym. We teach leadership, aerospace science, and character development. Cadets are expected to display a high degree of integrity, service, and self-reliance.

Aerospace Science Curriculum is not easy. Ordinarily we take in-coming freshmen who have at least a 3.0 GPA in Middle School (or a 2.5 GPA if they are in a GATE program). Obviously science and math play a large background in what we teach, so we emphasize a solid foundation in those areas. Our ultimate goal is to prepare cadets for life after high school in the high-tech, globally oriented, and diverse workplace of the 21st Century.

Admissions exceptions are made on a case-by-case basis. Feel free to contact us with any questions you may have.

EDWARD P. FEDOR, Lt Col, USAF (ret)
Senior Aerospace Science Instructor
